TABLE ASSEMBLY INSTRUCTIONS

1. Connect adjustable leg extension (#1) to post (#2) using 1/2 x 7/6" hex head bolt, washer & surrated flange nut.
2. Attach leg assemblies to bottom brace (#11) using 5/16 x 5/16" hex bolts & surrated flange nuts.
3. Assemble top brace(#3) and apron rail(#5) to leg assembly using 5/16 x 3/4" hex bolts & 5/16-18 surrated flange nuts.
4. Add diagonal (#6) & straight corner brace (#7) as per drawing using 5/16 x 3/4" hex bolt & 5/16" surrated flange nut.
5. Repeat above steps on all center sections of framework. End sections of framework are in large cartons marked sectional which finish off each end of the table.
6. Place table tops with spline on steel framework starting in the middle working both directions or start on one end and work to the other end.
7. Attach spline (#12) to top brace using 5/16 x 3/4" hex bolt. Leave bolts loose until all tops are in place & properly aligned.
8. Adjust table to proper height making sure the table is straight & then tighten all the hardware.
9. Install the #12x3/4" screws in tops around perimeter through holes provided in aprons.

NOTE: Disregard these instructions for X-pand-X tables 84" & wider.
